HOUSE BILL NO. 213. BY MR. JONES OF TREGO.

An Act

Relating to the establishment of a county High School in Trego county, Kansas.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF KANSAS:

SECTION 1. The electors of Trego county, Kansas, are hereby authorized to proceed at their discretion in the establishment of a county high school, according to the methods and procedure prescribed for counties having a population of 6000 inhabitants or over, under chapter 92, article 19, of the General Statutes of 1901.

SEC. 2. This act shall take effect and be in force from and after its publication in the state paper.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Four competent young men from Graham county are holding on to legislative jobs in Topeka this winter. And why not, for the county is the home of the lieutenant governor and John Dawson, who is holding an appointive office in the attorney general's office.—State Journal.

W. W. Parks of Thomas county, a half-brother of Sam Parks of the Saline neighborhood, arrived in the city the first of the week with a car of stock and farm implements. He has rented the Widow Thornton's place near the Rinker school house east of town. We welcome Mr. Parks into our midst.

Walter Swigrit, one of Wa-Keeney's bright young men, and who left here several years ago, and who was book-keeper for an implement firm at Kansas City, Mo., has a more lucrative position with the Moon-Pryor Lumber Co., of the same place. Walter is at Morris' Ferry, Ark., where the firm mill is located.

Mrs. Wallace, a temperance lecturer of note, lectured in the M. E. church Tuesday evening. She had a fine audience, but the fellows she wished to talk to were not present—as the majority of her audience was ladies, and we all know the ladies don't need any lecturing on temperance—its old blunts who need it.

The regular term of our district court will convene Tuesday, March 3. A jury will be drawn as there are two threshing machine cases on the docket and if these cases go to trial they will be tried by jury. It has been so long a time since Trego county had a jury trial that we've almost forgotten how many it takes to constitute a jury.

The Wa-Keeney Examiner has been blown from that town and dumped into Hill City, which gives that place four newspapers. If there is a set of progressive people anywhere they are to be found in Lieutenant Governor Hanna's town, hence four weekly publications. The complexion of them is as follows: One straight Republican, one straight Populist, one a sort of a betwixt and between, and the last one Socialist.—State Journal.

Some of the young bloods around town are in the habit of jumping on to the country boys when they come to town. One young blood received a lesson that he will remember for a long time. He jumped onto one of Jake Schneider's boys and Jake's boy knocked a lot of claret out of him—the proof of which can be seen in front of the Independent office. Moral to town boys: Let the country boys alone or else take the consequences.

Latest story on our land office: Judge Otis L. Atherton of Russell county has at last been named for the receiver of the Wa-Keeney land office. It has been hanging fire for several months. Senator Burton has kept his pledge with Atherton. He can't afford to move to Wa-Keeney, and he is fairly well off financially, and why did he want it, his friends ask. Some of his friends explain it in this manner: He had been the loser, politically, for a number of years, and wanted it simply for recognition again, and in short time will resign in the interest of Charles E. Hall, a staunch Burton-Curtis friend, who also lives in Russell, and who was, too, favored with some promises in Topeka during the senatorial election that if Curtis won out Hall would be taken care of.—State Journal.

Railroad Taxation.

This office is in receipt of a pamphlet entitled "Railroad Taxation in Kansas" in which we find some very interesting tables.

This pamphlet was prepared under authority of the railroads of Kansas, but the tables of rates, valuations, etc., are copied from records and are therefore absolutely correct.

The tables in this book show that in the various states contiguous to Kansas the railroads pay the following tax per mile.

Kansas.....	\$255.03
Iowa.....	159.69
Missouri.....	174.90
Nebraska.....	198.86
Oklahoma.....	158.53
Colorado.....	245.25
Wyoming.....	138.45
Arkansas.....	120.70
Texas.....	103.68
Montana.....	111.93
Oregon.....	130.81
North Dakota.....	187.11
South Dakota.....	72.17

Kansas railroads pay 62 per cent. more tax than Iowa and 46 per cent. more than Mo. That only 18 per cent. of property is returned for assessment in the state and only 10 per cent. of value of personal property is returned for assessment.

That upon an investment by the railroads, tax to the amount of \$255.41 is paid and for a like amount invested by the farmers he pays the sum of \$141.21.

The railroad investment pays 80 per cent more tax than the farm investment.

The railroads pay about one fourth of the tax in the state of Kansas. It is true here in Trego county, where the Union Pacific pays about 25 per cent. of all tax collected by the county.

If you study this pamphlet it will show that the railroads are paying fully their proportion of taxes in Kansas and knocks out old "Do right (Craddock's) recent campaign argument. It makes it look like demagoguery.

Poultry.—Still wanted at the Star Grocery. Prices at present good for dressed and alive.

East Side. Dist. 42, lost, her coal-house by fire the other night. The origin is not known.

For Sale.—Barley and Black Outs.—J. T. W. Cloud, one-half mile north of town.
